"For too many people, not just in our own country but around the world, the penny hasn't yet dropped... that this climate change challenge is real and is happening now...The penny hasn't dropped too that Copenhagen is the chance to address on a global scale the climate change challenge. There isn't yet that sense of urgency and drive and animation about the Copenhagen conference." – David Miliband

I read recently that one of the best ways to influence the behaviour of people is not to offer rewards but to set a good example, a kind of do-goody keeping up with the Joneses. I have signed the school up to the 10:10 commitment for 2010, to reduce our carbon footprint by 10% next year and hope that the 'good' behaviour of our school community will have repercussions for the local area and, perhaps, beyond.

The 10:10 site suggests four key areas to measure: electricity; on-site fuel use (gas); road transport; air travel.

27 Nov 2009

These are some ways in which we can reduce the school community's carbon footprint but I have an ambition to go further, to develop and implement creative and innovative ways to save energy and resources and I'm asking for your help! So, if this is your bag, come along* to the 10:10 forum that I'll be hosting on:

8th December at 9.15am in the school hall.

Bring your urgency, drive and animation to the meeting, even if the leaders of the world can't to theirs and let's start a carbon footprint revolution!

Matthew

The Winter Fair...

...is at the end of next week!

All hands on deck needed, especially organizing and running of various craft stalls (candle decorating, pomanders, tetra pack purses or your own original ideas)

Please take a moment to look at the **signing up sheets** which clearly show all the help/stall covering needed. This will be on the playground entrance board **or** in the hall - sign up for the fun and festivities!

Also needed - lots of bits and bobs to create a magical experience, check the list below:

	Where to put
Fairy lights (<i>label plug with your name</i>)	Quiet Room
Books for bookstall	Quiet Room
Beads (<i>big enough to thread on a lace</i>)	Quiet Room (labelled box)
Gorgeous greenery for decoration	Large garden bag*
Clean Tetra Paks, top/bottom cut off	Quiet Room
Hamper contributions – boxes in the classrooms	

**you will find this next to the entrance to Class 2 - please cover with the other bag so contents don't get soaked*

All contributions and help will be greatly appreciated - and accepted.

Thank you, the Winter Fair Team

(any questions ring Raphaella (Emil) – 07787 726069 or grab Emma (Martha Class 2) in the playground)

Christmas decoration workshop

Class 2 are having a Christmas decoration workshop and need all that glitters and is golden, eg old tinsel, baubles, ribbons, buttons or anything else golden and festive! Please leave in Class 2.
Thanks, Charley (*Inigo*) and Emma (*Martha*)

Aakesh (Class 1) has created a wonderful firework display and signed it

Fire, fire!

You should be comforted to know that the children and adults of Lewes New School are able to clear the building and be accounted for in 3 minutes and 30 seconds! If you use the building please remember to check the '**Action on hearing the Fire Alarm**' signs that are displayed around the school, the location of the nearest fire extinguisher and the '**Break glass**' fire points.
Thanks, Matthew (Fire Marshall)

Remember that there will be an Open Forum on Wednesday 9th - everyone is welcome. This is an opportunity to bring thoughts and ideas to air and exchange - it is an integral part of our community. The Forum's agenda is created on the evening so you need to be there to be heard. Looking forward to seeing you all!
